<b>A</b>	
<b>ACCIDENTS AND ACCIDENT PREVENTION</b>	
Air Brakes—Design and Performance—Past, Present, Future, Stephen Johnson, Jr.	No 40
CAA Aircraft Fire Prevention Developments, Harvey L. Hansberry	Fe 36
Car Design Factors in Highway Safety, Maxwell Halsey	Je 17
Headlighting with Minimum Glare, Val J. Roper	Se 60
Practical Aspects of Reverse-Thrust Propellers in Airline Operation, M. G. Beard	Jl 56
Providing Safe Transportation in Buses, K. L. Raymond	Je 50
Standardization and Simplification for the Air Transport Industry, William Littlewood	Se 41
The Fallacy of Arbitrary Performance Regulations, F. W. Kolk and R. W. Ayer	Ag 66
What the Air Force Wants in Nonflammable Hydraulic Fluids, E. M. Glass	Se 55
<b>ADDITIVE COMPOUNDS</b>	
Developments in Fuels, Lubricants, and Lubrication, R. J. S. Pigott	Ag 17
Experience with Diesel Lubricating Oils, W. F. Joachim, W. E. Robbins, M. S. Gordon and T. G. Timberlake	Mr 35
Lubrication Problems Encountered in Light Plane Engines, Carl T. Doman	Mr 18
Some Considerations of Present Day Torque Converter Fluids and Torque Converter Maintenance, E. F. Collins	No 27
Storage Stability of Gasolines in Automotive Fuel Systems, J. A. Bolt	Oc 89
What the Air Force Wants in Nonflammable Hydraulic Fluids, E. M. Glass	Se 55
<b>ADHESIVES</b>	
Fuel Tanks—Integral versus Bladders versus Metal Cells, John E. Lindberg, Frank R. Zerilli and C. R. Ursell	Ap 34
<b>AERODYNAMICS</b>	
Current NACA Research on Civil Aviation Problems, Hugh L. Dryden	My 72
Helicopter Controls for Pitch-Power Coordination, A. F. Donovan and Harold Hirsch	Ap 63
The Ramjet as a Supersonic Propulsion Plant, W. H. Goss and Emory Cook	Jl 53
<b>AINSLEY, W. G.</b>	
Progress Report on the CRC Diesel Fuel Program (co-authors W. J. Carathaus and C. M. Ridgeway)	Je 87
<b>AIR CARGO</b>	
Cargo Aircraft Requirements, John J. Casey, Jr. and R. Dixon Speas	Jl 49
<b>AIR CONDITIONING</b>	
Design Considerations for Cabin Air Conditioning of Boeing Stratocruiser, R. L. Linforth	My 19
Engines Operating on Propane and Diesel Fuels for Air Conditioning and Generator Operator on Railway Passenger Cars, N. H. Willis	Oc 93
Jet Aircraft Cabin Temperature Control, D. O. Moeller and O. A. Sanne	Ag 46
<b>AIR TRANSPORT</b>	
A New Approach to Cockpit Layout—An Analytical Approach, Com. T. D. Davies	De 48
Air Terminal Design (A Selective Method of Planning), Walther Prokosch	De 55
Air Transport Ground Operating Costs, R. G. Ferguson	My 73
Air Transport Problems, E. S. Land	Oc 25
Brazil and Air Transport, Ralph N. DuBois	My 74
Design of Instrument Dials for Ease of Reading, Walter F. Grether	Se
Problems of International Standardization of Civil Air Regulations, Edward Warner	Mr
Proposed Air Traffic Control and Controlled Handling Systems for High-Speed Aircraft, Milton W. Arnold	Mr
Standardization and Simplification for the Air Transport Industry, William Littlewood	Se
The Fallacy of Arbitrary Performance Regulations, F. W. Kolk and R. W. Ayer	Ag
Ways To End Paradox of Airlines, L. T. Cohu	Ag
<b>AIRCRAFT ACCESSORIES AND EQUIPMENT</b>	
A New Approach to Cockpit Layout—An Analytical Approach, Com. T. D. Davies	De 4
Air Transport Maintenance and Engineering Aspects of Powerplant Controls, Harry W. Nevin, Jr.	Ag 6
Cabin Supercharger Design and Drive Systems, S. B. Sherwin and D. O. Moeller	De 6
Current NACA Research on Civil Aviation Problems, Hugh L. Dryden	My 7
Design Considerations for Cabin Air Conditioning of Boeing Stratocruiser, R. L. Linforth	My 11
Design of Instrument Dials for Ease of Reading, Walter F. Grether	Se 4
Electronic Analog Studies for Turbo-Prop Control Systems, G. A. Philbrick, W. T. Stark and W. C. Schaffer	De 6
Jet Aircraft Cabin Temperature Control, D. O. Moeller and O. A. Sanne	Ag 4
Performance of Electrical and Radio Equipment at 40,000 Ft, Karl Martinez	Jl 2
Problems of Noise Reduction from an Airplane Design Standpoint, H. L. Ericson	Fe 4
Reduce Airplane Noise Through Basic Design, W. E. Burnham	Fe 4
Standardization and Simplification for the Air Transport Industry, William Littlewood	Se 4
The A-12 Gyropilot, P. Halpert	De 6
The Pilot Versus Supersonic Speeds, Lt.-Com. G. W. Hoover	Mr 5
The Role of Research and Development in Insuring Effective Air Power, Major-Gen. L. C. Craigie	Oc 9
What the Air Force Wants in Nonflammable Hydraulic Fluids, E. M. Glass	Se 5
Why Pneumatics? Or the Case for Pneumatics for Intermittent Services on Aircraft, Howard F. Schmidt and H. F. Gerwig	Jn 5
<b>AIRCRAFT DESIGN AND CONSTRUCTION</b>	
A New Approach to Cockpit Layout—An Analytical Approach, Com. T. D. Davies	De 4
Air Transport Problems, E. S. Land	Oc 2
CAA Aircraft Fire Prevention Developments, Harvey L. Hansberry	Fe 3
Cargo Aircraft Requirements, John J. Casey, Jr. and R. Dixon Speas	Jl 4
Decimal Dimensioning—What Profit? O. E. Kirchner	Jn 4
Design Considerations for Cabin Air Conditioning of Boeing Stratocruiser, R. L. Linforth	My 11
Economical Airport Planning, Harry O. Wright, Jr.	Mr 8
Engine Installation Problems in the XP-84 Airplane, R. R. Higginbotham	Jn 5
Fuel Tanks—Integral versus Bladders versus Metal Cells, John E. Lindberg, Frank R. Zerilli and C. R. Ursell	Ap 3
Future Power for the Personal Airplane, John W. Thorp	Jn 4
Importance of Noise Reduction in Airport Location and Layout, J. M. Picton	Fe 4
Problems of Noise Reduction from an Airplane De-	

<i>Engin Lib Direct</i>		
	Page	
sign Standpoint, H. L. Ericson . . . . .	Fe 47	
Reduce Airplane Noise Through Basic Design, W. E. Burnham . . . . .	Fe 47	
Standardization and Simplification for the Air Transport Industry, William Littlewood . . . . .	Se 41	
The Designer and Manufacturing Costs, George W. Papen . . . . .	Jn 24	
The Pilot Versus Supersonic Speeds, Lt.-Com. G. W. Hoover . . . . .	Mr 57	
Ways To End Paradox of Airlines, L. T. Cohu . . . . .	Ag 86	
What Price Structural Testing? S. A. Gordon and G. E. Holback . . . . .	Ag 32	
<b>AIRCRAFT ENGINES. See Engines, Aircraft.</b>		
<b>AIRCRAFT ICING PROBLEMS</b>		
Carburetor Icing, E. E. Dean . . . . .	Jn 65	
Calculation of Heat Required for Wing Thermal Ice Prevention in Specified Icing Conditions, Carr B. Neel . . . . .	Jn 64	
The Role of Research and Development in Insuring Effective Air Power, Major-Gen. L. C. Craigie . . . . .	Oc 95	
<b>AIRCRAFT LANDING GEAR</b>		
Air Power as Affected by Airdrome Construction and Track-Type Landing Gear, Brig.-Gen. S. D. Sturgis, Jr. . . . .	Je 66	
Development of the Goodyear Cross-Wind Landing Wheel, O. W. Loudenslager . . . . .	De 39	
European Landing Gear Developments, H. G. Conaway . . . . .	Ag 50	
Why Pneumatics? Or the Case for Pneumatics for Intermittent Services on Aircraft, Howard F. Schmidt and H. F. Gerwig . . . . .	Jn 51	
<b>AIRCRAFT OPERATION AND PERFORMANCE</b>		
Air Power as Affected by Airdrome Construction and Track-Type Landing Gear, Brig.-Gen. S. D. Sturgis, Jr. . . . .	Je 66	
Cargo Aircraft Requirements, John J. Casey, Jr. and R. Dixon Speas . . . . .	Jl 49	
Current NACA Research on Civil Aviation Problems, Hugh L. Dryden . . . . .	My 72	
Determination of the Optimum Airplane-Powerplant Combination, J. H. Brewster, III . . . . .	Oc 32	
Practical Aspects of Reverse-Thrust Propellers in Airline Operation, M. G. Beard . . . . .	Jl 56	
Proposed Air Traffic Control and Controlled Handling Systems for High-Speed Aircraft, Milton W. Arnold . . . . .	Mr 45	
Standardization and Simplification for the Air Transport Industry, William Littlewood . . . . .	Se 41	
The A-12 Gyropilot, P. Halpert . . . . .	De 67	
The Fallacy of Arbitrary Performance Regulations, F. W. Kolk and R. W. Ayer . . . . .	Ag 66	
The Pilot Versus Supersonic Speeds, Lt.-Com. G. W. Hoover . . . . .	Mr 57	
The Role of Research and Development in Insuring Effective Air Power, Major-Gen. L. C. Craigie . . . . .	Oc 95	
Why Pneumatics? Or the Case for Pneumatics for Intermittent Services on Aircraft, Howard F. Schmidt and H. F. Gerwig . . . . .	Jn 51	
<b>AIRCRAFT PROPELLERS</b>		
Arc Welded Propeller Hubs Reduce Cost-Weight, John D. Waugh . . . . .	Jl 33	
Practical Aspects of Reverse-Thrust Propellers in Airline Operation, M. G. Beard . . . . .	Jl 56	
Problems of Noise Reduction from an Airplane Design Standpoint, H. L. Ericson . . . . .	Fe 47	
Reduce Airplane Noise Through Basic Design, W. E. Burnham . . . . .	Fe 47	
The Reversing Hydromatic and Its Control, Carl F. Baker . . . . .	Je 21	
<b>AIRCRAFT WINGS</b>		
Calculation of Heat Required for Wing Thermal Ice Prevention in Specified Icing Conditions, Carr B. Neel . . . . .	Jn 64	
<b>AIRPORTS</b>		
Air Power as Affected by Airdrome Construction and Track-Type Landing Gear, Brig.-Gen. S. D. Sturgis, Jr. . . . .	Je 66	
Air Terminal Design (A Selective Method of Planning), Walther Prokosch . . . . .	De 55	
Air Transport Problems, E. S. Land . . . . .	Oc 25	
Economical Airport Planning, Harry O. Wright, Jr. . . . . .	Mr 85	
<b>TL</b>	Importance of Noise Reduction in Airport Location and Layout, J. M. Picton . . . . .	Fe 47
<b>S68</b>	<b>AIRWAY TRAFFIC CONTROL</b>	
<b>A32</b>	Proposed Air Traffic Control and Controlled Handling Systems for High-Speed Aircraft, Milton W. Arnold . . . . .	Mr 45
<b>ALCOHOL-WATER INJECTION</b>		
	Antidetonant Injection, C. H. Van Hartesveldt . . . . .	Oc 20
	Increasing the Thermal Efficiencies of Internal Combustion Engines, J. M. Campbell, D. F. Caris and L. L. Withrow . . . . .	De 22
<b>ALTENBURGER, C. L.</b>		
	Practical Usage of Low Alloy High Tensile Steels in Automotive Structures . . . . .	Jl 21
<b>ALUMINUM AND ALUMINUM ALLOYS</b>		
	Aluminum for Body Stampings—Selection of Alloys, Drawing, and Joining, J. H. Dunn, E. G. Kort and G. O. Hoglund . . . . .	Jl 27
	An Automotive Designer's Concept of Steel vs. Light Metals, D. F. Toot . . . . .	Ag 59
	Design and Operating Experience with Weight-Reducing Materials, J. L. S. Snead, Jr. . . . .	Se 27
<b>ANTIFREEZE SOLUTIONS</b>		
	Developments in Engine Cooling Systems, F. M. Young . . . . .	Ag 67
<b>ANTIKNOCK COMPOUNDS</b>		
	Antidetonant Injection, C. H. Van Hartesveldt . . . . .	Oc 20
	Engine Knock and Molecular Structure of Hydrocarbons, Wheeler G. Lovell . . . . .	My 70
	Use of Antidetonant Injection in a High Compression Ratio Engine, R. I. Potter . . . . .	Oc 22
<b>APPRENTICE TRAINING</b>		
	Experience with Apprentice Mechanic Training, A. Walter Neumann . . . . .	Je 44
<b>ARNOLD, MILTON W.</b>		
	Proposed Air Traffic Control and Controlled Handling Systems for High-Speed Aircraft . . . . .	Mr 45
<b>AXLES</b>		
	Comparison of Stationary and Rotating Axle Idler Wheel Mountings for Tractor and Implement Service, George W. Curtis . . . . .	Jn 64
	Overall Considerations in Fifth-Wheel Mounting on Tractor-Semi-Trailers, Merrill C. Horine . . . . .	My 24
<b>AYER, R. W.</b>		
	The Fallacy of Arbitrary Performance Regulations (co-author F. W. Kolk) . . . . .	Ag 66
<b>B</b>		
<b>BACKEY, S. J.</b>		
	Engine Wear Research . . . . .	Jl 44
	(co-authors L. D. Thompson and E. L. Conn) . . . . .	
<b>BACKOFF, W. J.</b>		
	Evaluation of Light Aircraft Engine Lubricants . . . . .	Fe 31
	(co-authors N. D. Williams, K. Boldt and J. G. Hall) . . . . .	
<b>BAKER, CARL F.</b>		
	The Reversing Hydromatic and Its Control . . . . .	Je 21
<b>BARBER, EVERETT M.</b>		
	Knock-Limited Performance of Several Automobile Engines . . . . .	Mr 56
<b>BARRIGER, J. W.</b>		
	Super-Power for Super-Railroads . . . . .	Oc 69
<b>BAUER, W. W.</b>		
	Improved Automotive Finishes as Engineering Materials (co-author M. G. Bell) . . . . .	My 71
<b>BEARD, M. G.</b>		
	Practical Aspects of Reverse-Thrust Propellers in Airline Operation . . . . .	Jl 56
<b>BEARINGS AND BEARING METALS</b>		
	Ball Bearings—Design and Application, Fayette Leister . . . . .	Je 61, De 65
	Bearings in Action—Plague of Friction Oxidation, L. A. Hilles . . . . .	Ag 69
	Comparison of Stationary and Rotating Axle Idler Wheel Mountings for Tractor and Implement Service, George W. Curtis . . . . .	Jn 64
	Coordinating Research Council . . . . .	De 43

	Page
Developments in Fuels, Lubricants, and Lubrication, R. J. S. Pigott .....	Ag 17
<b>BELILOVE, SAUL</b> Recent and Future Developments in Diesel Engines	Ap 49
<b>BELL, M. G.</b> Improved Automotive Finishes as Engineering Materials (co-author W. W. Bauer) .....	My 71
<b>BERLYN, MARTIN</b> Considerations in the Development of Low-Cost Fuel Injection Equipment .....	De 28
Influence of Injection Characteristics on Exhaust Smoke .....	Ap 54
<b>BERT, J. A.</b> Preignition and Its Deleterious Effects in Aircraft Engines (co-author A. Hundere) .....	Ag 43
<b>BIGGERS, HOPE</b> Notes on Turbopropjet Developments .....	Je 86
(co-author L. E. Shedenhelm) .....	
<b>BLANC, L. A.</b> Effect of Diesel Fuel Characteristics on Engine Deposits and Wear .....	Mr 43
Some Further Work on High Sulfur Diesel Fuels .....	De 53
<b>BOHUSLAV, HANS</b> Marine and Industrial Type Diesel Engines Operation and Maintenance .....	No 60
<b>BOLDT, K.</b> Evaluation of Light Aircraft Engine Lubricants .....	Fe 31
(co-authors W. J. Backoff, N. D. Williams and J. G. Hall) .....	
<b>BOLLES, J. H.</b> Electrical Equipment and Its Application .....	Oc 95
<b>BOLT, J. A.</b> Storage Stability of Gasolines in Automotive Fuel Systems .....	Oc 89
<b>BOLTS AND NUTS</b> Applications, Materials, and Specifications of Bolts, W. C. Stewart .....	Ap 20
<b>BOORD, CECIL E.</b> The Component Parts of Gasoline .....	Mr 86
<b>BRAKES</b> Air Brakes—Design and Performance—Past, Present, Future, Stephen Johnson, Jr. ....	No 40
Bonding Brake Lining to Shoes, W. R. Rodger and J. V. Hendrick .....	Je 36
Car Design Factors in Highway Safety, Maxwell Halsey .....	Je 17
Development of the Goodyear Cross-Wind Landing Wheel, O. W. Loudenslager .....	De 39
European Landing Gear Developments, H. G. Conway .....	Ag 50
Heavy Duty Brakes, Ralph K. Super .....	No 57
Overall Considerations in Fifth-Wheel Mounting on Tractor-Semi-Trailers, Merrill C. Horine .....	My 24
Passenger Car Brake Performance—Limitations and Future Requirements, T. P. Chase .....	Oc 51
Passenger Car Design—A Review, Harold T. Youngren .....	Jn 43
Providing Safe Transportation in Buses, K. L. Raymond .....	Je 50
Revolutionary Developments in Wheeled Military Vehicles, Col. Joseph M. Colby .....	Se 46
Transportation Problems in the 11 Western States, Ted V. Rodgers .....	My 52
<b>BREECH, ERNEST R.</b> The Challenge to Engineers .....	Fe 22
<b>BREWSTER, J. H. III</b> Determination of the Optimum Airplane-Powerplant Combination .....	Oc 32
<b>BROEZE, J. J.</b> Smoke in High Speed Diesel Engines .....	Ap 54
(co-author G. Stillebroer) .....	
<b>BROOKS, DONALD B.</b> The Precision of Fuel Rating, 1942-1946 .....	Je 53
(co-author Robetta B. Cleaton) .....	
<b>BROWN, B. GRATZ</b> Taking the Guesswork Out of Crankcase Ventilation .....	Oc 37
<b>BURNHAM, W. E.</b> Reduce Airplane Noise Through Basic Design .....	Fe 47
<b>BURNS, WILLIAM J.</b> Description of the Carter Electric Pusher Pump .....	Je 64
<b>BUS ENGINES.</b> See Engines, Truck and Bus.	
<b>BUSES</b> Applications of Hydraulic Transmissions, R. M. Schaefer .....	De 64
Booster Heaters for Internal Combustion Engines, E. T. Todd .....	No 55
Determination of Dynamic Loads in Coach Structures, W. E. Rice and R. O. Ellerby .....	Ag 70
Factors Affecting the Design and Installation of Wiring Systems for Commercial Vehicles, L. C. Wolcott .....	No 44
Factors that Determine the Proper Intervals Between Preventive Maintenance Procedures, W. J. Cumming .....	Je 22
Heavy Duty Brakes, Ralph K. Super .....	No 55
Providing Safe Transportation in Buses, K. L. Raymond .....	Je 55
SAE Standard Commercial Vehicle Nomenclature .....	No 22
Scientific Maintenance, A. T. Colwell .....	Mr 55
Selection of Transit Equipment, Charles Guernsey .....	No 44
The Highway Traveler—Greyhound's New Inter-city Bus, M. M. Dean .....	Oc 66
The Importance of Maintenance in Making Bus and Truck Operations Pay, Herbert I. Sullivan .....	Mr 60
Torque Converter Performance, A. H. Deimel .....	No 20
<b>C</b>	
<b>CAMPBELL, J. M.</b> Increasing the Thermal Efficiencies of Internal Combustion Engines .....	De 21
(co-authors D. F. Caris and L. L. Withrow) .....	
<b>CANNON, C. W.</b> A Practical Approach to Operator's Comfort .....	My 74
(co-author Earle Cox) .....	
<b>CARATHAUS, W. J.</b> Progress Report on the CRC Diesel Fuel Program .....	Je 88
(co-authors W. G. Ainsley and C. M. Ridgeway) .....	
<b>CARBURETORS AND CARBURETION</b> Carburetor Icing, E. E. Dean .....	Jn 60
Description of the Carter Electric Pusher Pump, William J. Burns .....	Je 60
Efficient Production and Utilization of Motor Gasoline, W. M. Holaday .....	My 30
High Output Engines, R. J. S. Pigott .....	De 33
Progress Report on the Dual-Fuel System, W. M. Holaday .....	Oc 22
<b>CARIS, DARL F.</b> High Compression Ratios in Automotive Engines .....	Je 60
(co-author Archie D. McDuffie) .....	
Increasing the Thermal Efficiencies of Internal Combustion Engines .....	De 22
(co-authors J. M. Campbell and L. L. Withrow) .....	
<b>CASEY, JOHN J., JR.</b> Cargo Aircraft Requirements .....	Jl 40
(co-author R. Dixon Speas) .....	
<b>CAST IRON</b> Section Size, Hardness, Composition Relationship in Gray Cast Iron, R. G. McElwee .....	No 33
<b>CERAMIC MATERIALS</b> Ceramic Bodies for Turbojet Blades, R. F. Geller .....	Je 40
High-Temperature Ceramic Coatings for Molybdenum, W. N. Harrison .....	Je 40
<b>CHASE, T. P.</b> Passenger Car Brake Performance—Limitations and Future Requirements .....	Oc 55
<b>CHAYNE, CHARLES A.</b> The Buick Dynaflow Drive .....	Ap 22
<b>CHENOWETH, OPIE</b> Aircraft Powerplant Problems .....	Mr 88
<b>CHEYNEY, LAVERNE E.</b> Research on Aircraft Hydraulic Packings .....	Mr 60

	Page
(co-authors Tommy J. McCuistion, Frederick E. Clark and Richard A. Clark)	
<b>CHILD'S, ROYCE</b>	
Laboratory Engines for Fuel Rating .....	Oc 90
<b>CHROMIUM PLATING</b>	
U. S. Naval Engineering Experiment Station Investigations on Cylinder Liner Wear, Warren G. Payne and William F. Joachim .....	Jl 40
<b>CHURCHILL, H. E.</b>	
Steering Geometry Characteristics and Their Influence on Car Handling .....	Oc 28
(co-author P. G. Hykes)	
<b>CIPRIANI, C.</b>	
A Modern Approach to Ignition .....	Oc 47
(co-author L. H. Middleton)	
<b>CIVIL AIR REGULATIONS</b>	
Problems of International Standardization of Civil Air Regulations, Edward Warner .....	Mr 52
<b>CLARK, FREDERICK E.</b>	
Research on Aircraft Hydraulic Packings .....	Mr 60
co-authors Tommy J. McCuistion, Richard A. Clark and Laverne E. Cheyney)	
<b>CLARK, RICHARD A.</b>	
Research on Aircraft Hydraulic Packings .....	Mr 60
co-authors Tommy J. McCuistion, Frederick E. Clark and Laverne E. Cheyney)	
<b>CLAUSER, FRANCIS H.</b>	
Flight Beyond the Earth's Atmosphere .....	Ag 25
<b>CLAY, LT.-COL. W. L.</b>	
Results of V-2 Rocket Tests .....	Oc 58
<b>CLEATON, ROBETTA B.</b>	
The Precision of Fuel Rating, 1942-1946 .....	Je 53
(co-author Donald B. Brooks)	
<b>CLUTCHES</b>	
Accelerated Testing of Helicopter Drive Mechanisms, Miller A. Wachs .....	My 48
<b>COERS, FRANK L.</b>	
Technique of Exhaust Smoke Measurement .....	Ap 54
(co-author Jordan P. Jung)	
<b>COHUE, L. T.</b>	
Ways To End Paradox of Airlines .....	Ag 86
<b>COLBY, COL. JOSEPH M.</b>	
Revolutionary Developments in Wheeled Military Vehicles .....	Se 46
<b>COLD WEATHER OPERATION</b>	
Operations Under Arctic Conditions, Lt. James T. Shore .....	De 54
Sub-Zero Automotive Crankcase Oils, E. W. Upham and H. C. Mougey .....	Fe 43
The Role of Research and Development in Insuring Effective Air Power, Major-Gen. L. C. Craigie	Oc 95
<b>COLLINS, E. F.</b>	
Some Considerations of Present Day Torque Converter Fluids and Torque Converter Maintenance	No 27
<b>COLWELL, A. T.</b>	
Power Controls for Turbojet Engines .....	Oc 67
(co-authors F. F. Offner and T. R. Thoren)	
Scientific Maintenance .....	Mr 57
Turbine Engine Blading: Manufacturing Technique and Fastening Methods .....	Fe 32
(co-author R. E. Cummings)	
<b>COMBUSTION</b>	
A Modern Approach to Ignition, C. Cipriani and L. H. Middleton .....	Oc 47
Aircraft Powerplant Problems, Opie Chenoweth	Mr 85
Combustion Characteristics of Diesel Fuels, Ernest W. Landen .....	My 43
Developments in Fuels, Lubricants, and Lubrication, R. J. S. Pigott .....	Ag 17
Diesel Combustion Temperatures—Influence of Fuels of Selected Combustion, P. S. Myers and O. A. Uyehara .....	Ag 56
Diesel Engines of a High-Speed, Heavy-Duty Type for Automotive Service, O. D. Treiber .....	No 54
Directing Fuel to Air for Combustion in an Engine, Lloyd E. Johnson .....	Mr 49
Factors Influencing the Design of Modern High-	
<b>CONN, E. L.</b>	
Engine Wear Research .....	Jl 44
